Snapshot re:publica2015

Keynote “Digitalization and ICTs for Development”

Friedrich Kitschelt, State Secretary in the Federal Ministry for Economic Cooperation and Development, Germany

Keynote “Bridging the Digital Divide – What can we learn from Rwanda?”

H.E. Jean Philbert Nsengimana, Minister of Youth & ICT, Rwanda

11:30 Coffee Break

12:00 Session I: Bridging the Digital Divide between Urban Spaces and Rural Places

Whereas urban spaces are well connected to the digital world, rural areas are often left behind. To allow equal opportunity universal access is a prerequisite. The questions are:

- What kind of concepts and incentives are needed to connect rural areas and ensure universal access?
- What role should internet regulation (not) play to enable a thriving digital economy?
- Which stimulus can be given from development cooperation to achieve universal access and enhance telecommunication infrastructure in partner countries?

Panelist:

H.E. Jean Philbert Nsengimana, Minister of Youth & ICT, Rwanda

Gudrun Grosse Wiesmann, Director Sub-Saharan Africa, Federal Ministry for Economic Cooperation and Development, Germany

Moez Chakchouk, Internet Policy Expert, Tunisia

Karl Jonas, Professor Bonn-Rhein-Sieg University of Applied Sciences, Germany

Klaus Landefeld, Board Member Infrastructure and Networks, Association of the German Internet Industry eco, Germany

Further Dialogue Partners:

Benjamin Kwasi Addom, ICT4D Programme Coordinator, The Technical Centre for Agricultural and Rural Cooperation (CTA), The Netherlands

Juliet Wanyiri, Founder Foondi, Kenya

01:30 Lunch Break

02:30 Session II: From Dots to Billions - the Potential of the Digital Economy

Digital economy is the home of innovations and has an immense potential for sustainable economic development. What are the threats? And where lies the potential? Six innovators, techies and experts will share their experience and animate your discussion on how to tap potentials. Together you will formulate concrete recommendations for the German Development Cooperation.

Input "What Digital Economy has to offer"

Tayo Akinyemi, Director AfriLabs

Just Two Minutes

- From your experience: What is the greatest challenge of the digital economy?
- From your experience: What is the greatest potential of the digital economy?

- **SAP**
- **Sourcefabric**
- **Yoza Cellphone Stories and Pearson's X-kit Achieve Mobile and Project Literacy**

04:30 **Session III: To know how: Bridging the Digital Divide between the Skilled and the Unskilled**

E-literacy describes the capacity to use digital technologies. Obtaining such capacity offers and creates opportunities to participate, engage and contribute to sustainable development on both a personal as well as a social dimension.

- Which challenges and risks do we face building e-literacy?
- What are the factors for success to improve e-literacy?
- How can development cooperation contribute to efficiently enhance e-literacy in partner countries?

Introductory Remarks

Roland Lindenthal, Head of Division Education and the Digital World, Federal Ministry for Economic Cooperation and Development, Germany
